Directors Report

The directors present their report, together with the financial statements, on the consolidated entity (referred to hereafter as the 'the Group') consisting of Rent.com.au Limited (referred to hereafter as the 'Company' or 'parent entity') and the entities it controlled for the year ended 30 June 2018.

Directors

The following persons were directors of Rent.com.au Limited during the whole of the financial year and up to the date of this report, unless otherwise stated:

Dr. Garry Garside	(Non-Executive Chairman)
Mr. John Wood	(Non-Executive Director)
Mr. Sam McDonagh	(Non-Executive Director)
Mr. Philip Warren	(Non-Executive Director)

Principal Activities

The Group operates real estate websites focusing on the rental property market. The primary website operated by the Group is www.rent.com.au.

Review of Operations

The Consolidated Statement of Profit or Loss and Other Comprehensive Income shows a net operating loss after tax of \$2,822,539 for the year ended 30 June 2018 (for year ended 30 June 2017: \$8,513,631). The net operating loss for the year ended 30 June 2018 included a non-cash share-based payments expense of \$191,759 (30 June 2017: \$2,243,418) associated with performance based convertible securities issued to advisors, shareholders and employees. Earnings Before Interest, Tax, Depreciation, and Amortisation (and excluding non-cash share-based payments) ("**EBITDA**") for the year ended 30 June 2018 was a loss of \$2,322,710 (30 June 2017: \$5,822,425).

Strong growth in Product and Service revenue saw the Group's revenue for the year ended 30 June 2018 grow by 41% from \$1,654,395 to \$2,324,880.

The Product and Service revenue growth of 115% from \$521,536 to \$1,118,957 was mainly driven by continued strong uptake of the Renter Resume feature and an increasing range of applicable products and services offered to renters. As at 30 June 2018 over 300,000 renters had created a Renter Resume, continuing to grow at a rate of over 500 new Renter Resumes per day. New products and services aimed at renters during their tenancy rather than merely while searching for property were launched during the year, including the acquisition of RentPay in the final part of the year.

Growing awareness of rent.com.au resulted in advertising revenue growing by a further 32% over the prior year despite maintaining consistent levels of unique visitors relative to the prior year. This growing awareness also enabled the Group to reduce its marketing expenditure by a further 39% compared with the prior year.

Despite focussing on revenue, the Group has continued to maintain an efficient cost base. Overhead costs were reduced by a further 41% compared with the prior year.

Significant changes in the state of affairs

On 1 May 2018 the Company successfully completed the placement ("**Placement**") of 29,975,714 of shares to both new and existing shareholders under its capacity under ASX Listing Rule 7.1 to raise \$2,308,129.98 (before costs). In addition, the Company completed a Share Purchase Plan ("**SPP**") on 22 May 2018, raising a further \$500,000 (before costs) from existing shareholders, issuing a further 6,493,498 shares.

Proceeds of both the Placement and SPP were and will be used to fund:

- The acquisition of the rental payments system, RentPay, from MYOB;
- Development of additional new products – e.g. landlord portal, adjacent websites; and
- Marketing of new products.

Dividends

No dividend has been paid or recommended by the Directors since the commencement of the financial period.

Matters Subsequent to the end of the Financial Year

No other matters or circumstances have arisen since the end of the financial period which significantly affected or may significantly affect the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years.

Likely Developments and Expected Results

The Group remains focussed on its short-term goal of cashflow break even, however it is also expanding its product and service offerings deeper into the tenancy period as well as across adjacent websites.

The Group expects that these additional activities will see it achieve its cashflow break even goal in the short term while also setting the Group on the course to greater profitability in the future.

Financial Position

The net assets of the Group have increased from \$3,592,578 at 30 June 2017 to \$3,619,688 at 30 June 2018. Cash reserves decreased from \$3,254,380 at 30 June 2017 to \$2,289,603 at 30 June 2018.

A – meetings eligible to attend

B – meetings attended

Company Secretaries

Jan Ferreira was appointed as company secretary from 15 June 2015. Jan is a CPA (Australia) and has a Certificate in Governance Practice from the Governance Institute of Australia. He has more than 13 years' experience within ASX listed businesses, having previously been Chief Financial Officer and Company Secretary at ThinkSmart Limited and a Financial Controller at Alinta Limited.

Steven Wood was appointed as a company secretary effective 18 September 2014. Steven specialises in corporate advisory, company secretarial and financial management services. Steven is a Chartered Accountant and has previously been involved in various private and seed capital raisings as well as successful ASX listings, whilst also providing company secretarial and financial management services to both ASX and unlisted public and private companies.

Performance Shares

The terms and conditions of the Performance shares have been previously outlined in the Company's prospectus dated 7 April 2015. Please refer to section 6.9 Capital Structure of the Prospectus dated 7 April 2015 for any additional information that is not outlined in this report.

Upon the achievement of the applicable performance milestone, the Performance Shares convert into Ordinary Shares at a ratio of 1 Ordinary Share for every 1 Performance Share held. No payment is necessary to exercise a Performance Share. As at the date of this report, Performance Shares on issue are as follows:

Class	Date Granted		Expiry Date	Number
B	17 June 2015	14 days after the release of the audited financial reports for period ended 31 December 2018		8,160,771
C	17 June 2015	14 days after the release of the audited financial reports for period ended 31 December 2019		8,160,771

The vesting conditions of the two classes of performance shares on issue are outlined below:

- Class B – will convert on achievement of greater than \$10,000,000 in revenue by the Group in any 12 month period on or before 31 December 2018.
- Class C – will convert on achievement of greater than \$3,000,000 EBITDA by the Group in any 12 month period on or before 31 December 2019.

Performance Rights

Upon the achievement of the applicable performance milestone, the Performance Rights convert into Ordinary Shares at a ratio of 1 Ordinary Share for every 1 Performance Right held. No payment is necessary to exercise a Performance Right. As at the date of this report, Performance Rights on issue are as follows:

Tranche	Date Granted	Expiry Date	Number
2	17 June 2015	14 days after the release of the audited financial reports for the period ended 31 December 2018.	117,277
3	17 June 2015	14 days after the release of the audited financial reports for the period ended 31 December 2019.	117,277
5	17 June 2015	14 days after the release of the audited financial reports for the period ended 31 December 2018.	678,443
5	13 August 2015	14 days after the release of the audited financial reports for the period ended 31 December 2018.	46,667
5	22 February 2016	14 days after the release of the audited financial reports for the period ended 31 December 2018.	80,000
5	9 September 2016	14 days after the release of the audited financial reports for the period ended 31 December 2018.	3,283,741
6	17 June 2015	14 days after the release of the audited financial reports for the period ended 31 December 2019.	678,443
6	13 August 2015	14 days after the release of the audited financial reports for the period ended 31 December 2019.	46,666
6	22 February 2016	14 days after the release of the audited financial reports for the period ended 31 December 2019.	80,000
6	9 September 2016	14 days after the release of the audited financial reports for the period ended 31 December 2019.	3,283,741

The vesting conditions of the various tranches of performance shares on issue are outlined below:

- Tranche 2 - will vest upon achievement of greater than \$10,000,000 in revenue by the Group in any 12 month period on or before 31 December 2018.
- Tranche 3 - will vest upon achievement of greater than \$3,000,000 EBITDA by the Group in any 12 month period on or before 31 December 2019.
- Tranche 4 - will vest upon achievement of greater than 500,000 unique visitors to the website www.rent.com.au in each of 3 consecutive months, on or before 31 December 2018.

1. Advisor options have vested and are exercisable.

2. Employee options have vested and are exercisable.

3. Employee options vest upon the VWAP of shares trading at greater than \$0.60 over 20 consecutive trading days.

4. Employee options vest upon:

- Tranche 4 – vest upon the VWAP of shares trading at greater than \$0.30 over 20 consecutive trading days.
- Tranche 5 – vest upon the VWAP of shares trading at greater than \$0.40 over 20 consecutive trading days.
- Tranche 6 – vest upon the VWAP of shares trading at greater than \$0.60 over 20 consecutive trading days.

Shares issued on the exercise of options

There were no ordinary shares of Rent.com.au Limited issued during the year ended 30 June 2018, and up to the date of this report, on the exercise of options.

Indemnification of officers

During the financial period, the Group entered into a policy to indemnify directors and officers against certain liabilities incurred as a director or officer, including costs and expenses associated in successfully defending legal proceedings. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium. The Group has not otherwise, during or since the financial year, indemnified or agreed to indemnify an officer or an auditor of the Group or of any related body corporate against a liability incurred as such an officer or auditor.

Proceedings on behalf of the Group

No person has applied to the Court under section 237 of the Corporations Act 2001 for leave to bring proceedings on behalf of the Group, or to intervene in any proceedings to which the Group is a party, for the purpose of taking responsibility on behalf of the Group for all or part of those proceedings.

Officers of the Group who are former partners of RSM Australia Partners

There are no officers of the Group who are former partners of RSM Australia Partners.

Auditor

RSM Australia Partners continues in office in accordance with section 327 of the Corporations Act 2001.

Non-Audit Services

Details of the amounts paid or payable to the auditor for non-audit services provided by the auditor are outlined in Note 27 to the financial statements.

The Board is satisfied that the provision of non-audit services during the financial year, by the auditor (or by another person or firm on the auditor's behalf), is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001

The Board is of the opinion that the services as disclosed in note 27 to the financial statements do not compromise the external auditor's independence requirements of the Corporations Act 2001 for the following reasons:

- all non-audit services have been reviewed and approved to ensure that they do not impact the integrity and objectivity of the auditor; and
- none of the services undermine the general principles relating to auditor independence as set out in APES 110 Code of Ethics for Professional Accountants issued by the Accounting Professional and Ethical Standards Board, including reviewing or auditing the auditor's own work, acting in a management or decision-making capacity for the company, acting as advocate for the company or jointly sharing economic risks and rewards.

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out immediately after this directors' report.

Audited Remuneration Report

The remuneration report details the key management personnel remuneration arrangements for the Group, in accordance with the requirements of the Corporations Act 2001 and its Regulations. Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including all directors.

The remuneration report is set out under the following main headings:

- A. Principles used to determine the nature and amount of remuneration
- B. Details of remuneration
- C. Share-based compensation
- D. Additional information

A. Principles used to determine the nature and amount of remuneration

The objective of the Group's executive reward framework is to ensure reward for performance is competitive and appropriate for the results delivered. The Board has elected to establish a Nomination and Remuneration Committee in accordance with its Corporate Governance Policy.

The Nomination and Remuneration Committee is responsible for determining and reviewing remuneration arrangements for its directors and executives and for developing and facilitating a process for Board and Director evaluation.

The key management personnel of the Group consisted of the following directors:

- Dr. Garry Garside (Non-Executive Chairman)
- Mr. John Wood (Non-Executive Director)
- Mr. Sam McDonagh (Non-Executive Director)
- Mr. Philip Warren (Non-Executive Director)

And the following executives:

- Mr Greg Bader (Chief Executive Officer)
- Mr. Jan Ferreira (Chief Financial Officer and Company Secretary)

In accordance with best practice corporate governance, the structure of non-executive director and executive remuneration is separate.

Non-Executive Director Remuneration

Fees and payments to non-executive directors reflect the demands which are made on, and the responsibilities of, the directors. Non-executive directors' fees and payments are reviewed annually by the Nomination and Remuneration Committee.

Non-executive directors' fees are determined within an aggregate directors' fee pool limit, which is periodically recommended for approval by shareholders. The maximum currently stands at \$350,000 per annum and was approved at a previous annual general meeting.

Executive Remuneration

The executive remuneration framework has the following components:

- base pay and benefits, including superannuation;
- short-term performance incentives; and
- long-term incentives provided as share-based payments.

The combination of these comprises the executive's total remuneration.

Fixed remuneration, consisting of base salary, superannuation and non-monetary benefits, are reviewed annually by the Nomination and Remuneration Committee based on individual and business unit performance, the overall performance of the Group and comparable market remunerations.

Executives may receive their fixed remuneration in the form of cash or other fringe benefits (for example motor vehicle benefits) where it does not create any additional costs to the Group and provides additional value to the executive.

The short-term incentives ('STI') program is designed to align the targets of the Group with the performance hurdles of executives. STI payments are granted to executives based on specific annual targets and key performance indicators ('KPI's') being achieved.

Long term incentives have been provided to directors and employees through the issue of performance shares, employee options and performance rights pursuant to the Long-Term Incentive Plan ('LTIP') approved by shareholders at the May 2015 Annual General Meeting.

Voting and comments made at the Group's 2017 Annual General Meeting ('AGM')

At the 2017 AGM, 99.6% of the eligible votes received supported the adoption of the remuneration report for the year ended 30 June 2017. The Group did not receive any specific feedback at the AGM regarding its remuneration practices.

B. Details of remuneration

Amounts of remuneration

Details of the remuneration of key management personnel of the Group are set out in the following tables.

Details of remuneration for the year ended 30 June 2018

Phillip Warren	100%	100%	-	-	0%	0%
John Wood	100%	61%	-	-	0%	39%
Other Key Management Personnel:						
Greg Bader	70%	73%	-	-	30%	27%
Jan Ferreira	98%	88%	-	-	2%	12%

Service Agreements

Remuneration and other terms of employment for the Chief Executive Officer and other Key Management Personnel are formalised in employment contracts. The major provisions of the agreements relating to remuneration are set out below:

Greg Bader, Chief Executive Officer (*commenced 23 August 2016*)

- Mr. Bader's Executive Services Agreement for the position of Chief Executive Officer has no fixed period and may be terminated by provision of six months' prior written notice by either party.
- Mr. Bader receives a base salary of \$220,000 per annum, plus statutory superannuation entitlements.
- Mr. Bader is eligible to participate in the Long-Term Incentive Plan and has been issued 3,750,000 Employee Options and 6,567,482 Performance Rights.
- Mr. Bader will also be eligible to participate in a Short-Term Incentive scheme which the Group is proposing to implement. The Board will determine a percentage of base salary that may be payable to Mr. Bader on the achievement of key performance indicators to be set having regard to the financial position and performance of the Group.

Jan Ferreira, Chief Financial Officer and Company Secretary (*commenced 28 April 2014*)

- Mr. Ferreira's Executive Services Agreement for the position of Chief Financial Officer and Company Secretary has no fixed period and may be terminated by provision of six months' prior written notice by either party.
- Mr. Ferreira receives a base salary of \$215,000 per annum, plus statutory superannuation entitlements.
- Mr. Ferreira is eligible to participate in the Long-Term Incentive Plan and has been issued 900,000 Employee Options and 211,098 Performance Rights.
- Mr. Ferreira will also be eligible to participate in a Short-Term Incentive scheme which the Group is proposing to implement. The Board will determine a percentage of base salary that may be payable to Mr. Ferreira on the achievement of key performance indicators to be set having regard to the financial position and performance of the Group.

The non-executive directors are subject to service agreements which cover relevant provisions including term, fees, independence, re-election and the role requirements.

C. Share based compensation

Other than outlined above, Rent.com.au Limited paid no share-based compensation to KMP during the year and there were no new performance rights or options granted to KMP for the year ended 30 June 2018.

D. Additional Information

Financial Performance Information

The earnings of the Group for the five years to 30 June 2018 are summarised below:

	2018	2017	2016	2015[†]	2014[*]
	\$	\$	\$	\$	\$
Sales revenue	2,324,880	1,654,395	748,495	171,197	454,289
EBITDA**	(2,322,710)	(5,822,425)	(7,216,670)	(927,249)	(1,442,099)
Loss after income tax	(2,822,539)	(8,513,631)	(12,820,585)	(3,655,771)	(1,647,509)

* relates to Select Exploration Ltd prior to 100% acquisition of Rent.com.au (Operations) Pty Ltd and renaming to Rent.com.au Ltd.

** excluding non-cash share-based payments, R&D income and loss on disposal of asset.

† The 2015 financial year was an abridged, 6-month financial year.

The factors that are considered to affect total shareholders return ('TSR') are summarised below:

	2018	2017	2016	2015	2014*
Share price at financial year end (\$)	0.086	0.065	0.160	0.180	0.010
Total dividends declared (cents per share)	-	-	-	-	-
Basic earnings per share (cents per share)	(1.38)	(4.72)	(12.42)	(6.62)	(3.75)

* relates to Select Exploration Ltd prior to 100% acquisition of Rent.com.au (Operations) Pty Ltd and renaming to Rent.com.au Ltd.

Equity instruments held by Key Management Personnel

1. Ordinary Shares

The number of ordinary shares in Rent.com.au Limited held by each KMP of the Group during the year ended 30 June 2018 is as follows:

30 June 2018	Balance at beginning of the year	Granted as remuneration during the year	Issued on exercise of options during the year	Other changes during the year	Balance at 30 June 2018
Garry Garside	4,499,603	-	-	1,194,805	5,694,408
Sam McDonagh	818,237	-	-	-	818,237
Philip Warren	157,386	-	-	64,935	222,321
John Wood	13,361,697	-	-	(618,612)*	12,743,085
Greg Bader	5,686,693	-	-	4,481,868	10,168,561
Jan Ferreira	105,549	-	-	628,978	734,527
Total	24,629,165	-	-	5,751,974	30,381,139

* Mr Wood's holding decreased because of the disaggregation of a trust of which he was director. His ultimate shareholding increased by 1,753,089 shares during the financial year.

2. Options

The number of options over ordinary shares in Rent.com.au Limited held by each KMP of the Group during the year ended 30 June 2018 is as follows:

30 June 2018	Balance at start of the year	Granted as remuneration during the year	Exercised during the year	Other changes during the year	Balance at 30 June 2018
Garry Garside	950,000	-	-	-	950,000

AUDITOR'S INDEPENDENCE DECLARATION

As lead auditor for the audit of the financial report of Rent.com.au Limited for the year ended 30 June 2018, I declare that, to the best of my knowledge and belief, there have been no contraventions of:

- (i) the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- (ii) any applicable code of professional conduct in relation to the audit.

**INDEPENDENT AUDITOR'S REPORT
TO THE MEMBERS OF
RENT.COM.AU LIMITED**

Opinion

We have audited the financial report of Rent.com.au Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 30 June 2018, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report of the Group is in accordance with the Corporations Act 2001, including:

- (i) Giving a true and fair view of the Group's financial position as at 30 June 2018 and of its financial performance for the year then ended; and
- (ii) Complying with Australian Accounting Standards and the Corporations Regulations 2001.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the Corporations Act 2001 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the Corporations Act 2001, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How our audit addressed this matter
Recognition of Revenue Refer to Note 1 and 3 in the financial statements	
<p>The Group earns revenue through its role as an operator of a real estate website focusing on the rental property market. The major revenue streams are:</p> <ul style="list-style-type: none"> - Fees from agents and landlords; - Rental products revenue; - Advertising sales; and - Other revenue. <p>Revenue was considered a key audit matter because it is the most significant account balance in the consolidated statement of profit or loss and other comprehensive income and the process of revenue recognition is complex due to multiple revenue streams for services rendered. Furthermore, the revenue transactions are high volume and of low value. The revenue recognition of each revenue stream is subject to management judgements. These include:</p> <ul style="list-style-type: none"> • Determination of the Group's accounting policy in relation to each revenue stream; and • Determining the amount of revenue that can be measured reliably and whether it is probable that the economic benefits associated with the transaction will flow to the Group. 	<p>Our audit procedures in relation to revenue recognition included:</p> <ul style="list-style-type: none"> • Obtained a detailed understanding of each of the revenue streams and the process for calculating and recording revenue; • Assessing whether the Group's revenue recognition policies were in compliance with Australian Accounting Standards; • Performing substantive testing on each revenue stream on a sample basis. The substantive testing included agreeing transactions to approved pricing used by the Group, agreeing the receipt of cash to bank statements and agreeing the delivery of services to source documentation; • Reviewing the deferred revenue calculation for agent listing fees received in advance by the Group; and • Review of sales transactions before and after year-end to ensure that revenue is recognised in the correct financial period.

Other Information

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2018, but does not include the financial report and the auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the Company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

A further description of our responsibilities for the audit of the financial report is located at the Auditing and Assurance Standards Board website at: http://www.auasb.gov.au/auditors_responsibilities/ar2.pdf. This description forms part of our auditor's report.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included within the directors' report for the year ended 30 June 2018.

In our opinion, the Remuneration Report of Rent.com.au Limited, for the year ended 30 June 2018, complies with section 300A of the Corporations Act 2001.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Cash and cash equivalents at the end of the financial year		2,289,603	3,254,380

The above consolidated statement of cash flows should be read in conjunction with the accompanying notes.

This financial report of Rent.com.au Limited ('the Company') and its controlled entities ('the Group') for the year ended 30 June 2018 was authorised for issue in accordance with a resolution of the Directors on 17 August 2018.

Rent.com.au Limited is a company limited by shares incorporated in Australia whose shares are publicly traded on the Australian Securities Exchange.

Note 1. Significant Accounting Policies

The principal accounting policies adopted in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

New, revised or amending Accounting Standards and Interpretations adopted

The Group has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new, revised or amending Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Basis of Preparation

These general-purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') and the Corporations Act 2001, as appropriate for for-profit oriented entities. These financial statements also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board ('IASB').

Historical cost convention

The financial statements have been prepared under the historical cost convention, except for, where applicable, the revaluation of available-for-sale financial assets, financial assets and liabilities at fair value through profit or loss, investment properties, certain classes of property, plant and equipment and derivative financial instruments.

Critical accounting estimates

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 2.

Parent entity information

In accordance with the Corporations Act 2001, these financial statements present the results of the Group only. Supplementary information about the parent entity is disclosed within these financial statements.

The presentation currency is Australian dollars.

Note 1. Significant Accounting Policies (continued)

Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Rent.com.au Limited as at 30 June 2018 and the results of all subsidiaries for the year then ended.

Subsidiaries are all those entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between entities in the Group are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

The acquisition of subsidiaries is accounted for using the acquisition method of accounting. A change in ownership interest, without the loss of control, is accounted for as an equity transaction, where the difference between the consideration transferred and the book value of the share of the non-controlling interest acquired is recognised directly in equity attributable to the parent.

Non-controlling interest in the results and equity of subsidiaries are shown separately in the statement of profit or loss and other comprehensive income, statement of financial position and statement of changes in equity of the Group. Losses incurred by the Group are attributed to the non-controlling interest in full, even if that results in a deficit balance.

Where the Group loses control over a subsidiary, it derecognises the assets including goodwill, liabilities and non-controlling interest in the subsidiary together with any cumulative translation differences recognised in equity. The Group recognises the fair value of the consideration received and the fair value of any investment retained together with any gain or loss in profit or loss.

Operating segments

Operating segments are presented using the 'management approach', where the information presented is on the same basis as the internal reports provided to the Board (the Chief Operating Decision Makers ('CODM') of the business). The Board is responsible for the allocation of resources to operating segments and assessing their performance.

Foreign currency translation

The financial statements are presented in Australian dollars, which is Rent.com.au Limited's functional and presentation currency.

Foreign currency transactions

Foreign currency transactions are translated into Australian dollars using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at financial year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

Note 1. Significant Accounting Policies (continued)

Revenue Recognition

Revenue is recognised when it is probable that the economic benefit will flow to the Group and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable.

Subscription services

Subscription revenues are recognised on a straight-line basis over the contract period.

Listing fees

Listing fees are recognised when the Group has an enforceable claim against the customer arising from a property listing advertisement. Listing fees arise either from the completion of the online rental application process (renter placement/SmartPlan), or from the customer purchasing one of the Group's paid for advertising products.

Products and services revenue

Products and services revenue is recognised at the point of sale or when the service is provided. Amounts disclosed are net of returns and discounts.

Advertising revenue

Revenues from site display advertising are recognised when the advertisements are displayed. Where the Group has utilised the services of an external sales agency to sell advertising services on behalf of the Group, the revenues and the sales commissions paid to the sales agency are recorded separately. Revenues from referrals and database advertising are recognised when the obligations under the relevant contract are fulfilled.

Interest

Interest revenue is recognised as interest accrues using the effective interest method. This is a method of calculating the amortised cost of a financial asset and allocating the interest income over the relevant period using the effective interest rate, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the net carrying amount of the financial asset.

Other revenue

Other revenue is recognised when it is received or when the right to receive payment is established.

All revenue is stated net of the amount of goods and services tax (GST).

Income Tax

The income tax expense or benefit for the period is the tax payable on that period's taxable income based on the applicable income tax rate for each jurisdiction, adjusted by the changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses and the adjustment recognised for prior periods, where applicable.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to be applied when the assets are recovered or liabilities are settled, based on those tax rates that are enacted or substantively enacted, except for:

Note 1. Significant Accounting Policies (continued)

Income Tax (continued)

- When the deferred income tax asset or liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting nor taxable profits; or
- When the taxable temporary difference is associated with interests in subsidiaries, associates or joint ventures, and the timing of the reversal can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

The carrying amount of recognised and unrecognised deferred tax assets are reviewed at each reporting date. Deferred tax assets recognised are reduced to the extent that it is no longer probable that future taxable profits will be available for the carrying amount to be recovered. Previously unrecognised deferred tax assets are recognised to the extent that it is probable that there are future taxable profits available to recover the asset.

Deferred tax assets and liabilities are offset only where there is a legally enforceable right to offset current tax assets against current tax liabilities and deferred tax assets against deferred tax liabilities; and they relate to the same taxable authority on either the same taxable entity or different taxable entities which intend to settle simultaneously.

Rent.com.au Limited and its wholly-owned Australian subsidiaries have formed an income tax Group under the tax consolidation regime. The head entity and each subsidiary in the tax Group continue to account for their own current and deferred tax amounts. The tax Group has applied the 'separate taxpayer within group' approach in determining the appropriate amount of taxes to allocate to members of the tax Group.

In addition to its own current and deferred tax amounts, the head entity also recognises the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from each subsidiary in the tax Group.

Assets or liabilities arising under tax funding agreements with the tax consolidated entities are recognised as amounts receivable from or payable to other entities in the tax consolidated group. The tax funding arrangement ensures that the intercompany charge equals the current tax liability or benefit of each tax Group member, resulting in neither a contribution by the head entity to the subsidiaries nor a distribution by the subsidiaries to the head entity.

Current and non-current classification

Assets and liabilities are presented in the statement of financial position based on current and non-current classification.

An asset is classified as current when: it is either expected to be realised or intended to be sold or consumed in the entity's normal operating cycle; it is held primarily for the purpose of trading; it is expected to be realised within 12 months after the reporting period; or the asset is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least 12 months after the reporting period. All other assets are classified as non-current.

Note 1. Significant Accounting Policies (continued)

Income Tax (continued)

A liability is classified as current when: it is either expected to be settled in the entity's normal operating cycle; it is held primarily for the purpose of trading; it is due to be settled within 12 months after the reporting period; or there is no unconditional right to defer the settlement of the liability for at least 12 months after the reporting period. All other liabilities are classified as non-current.

Deferred tax assets and liabilities are always classified as non-current.

Cash and Cash Equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. For the statement of cash flows presentation purposes, cash and cash equivalents also includes bank overdrafts, which are shown within borrowings in current liabilities on the statement of financial position.

Trade and Other Receivables

Trade receivables are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any provision for impairment. Trade receivables are generally due for settlement within 30 days.

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectable are written off by reducing the carrying amount directly. A provision for impairment of trade receivables is raised when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation and default or delinquency in payments (more than 90 days overdue) are considered indicators that the trade receivable may be impaired. The amount of the impairment allowance is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Cash flows relating to short-term receivables are not discounted if the effect of discounting is immaterial.

Other receivables are recognised at amortised cost, less any provision for impairment.

Associates

Associates are entities over which the Group has significant influence but not control or joint control. Investments in associates are accounted for using the equity method. Under the equity method, the share of the profits or losses of the associate is recognised in profit or loss and the share of the movements in equity is recognised in other comprehensive income. Investments in associates are carried in the statement of financial position at cost plus post-acquisition changes in the Group's share of net assets of the associate. Goodwill relating to the associate is included in the carrying amount of the investment and is neither amortised nor individually tested for impairment. Dividends received or receivable from associates reduce the carrying amount of the investment.

Note 1. Significant Accounting Policies (continued)

Associates (continued)

When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

The Group discontinues the use of the equity method upon the loss of significant influence over the associate and recognises any retained investment at its fair value. Any difference between the associate's carrying amount, fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

Plant and equipment

Plant and equipment is stated at historical cost less accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Depreciation is calculated on a straight-line basis to write off the net cost of each item of plant and equipment over their expected useful lives as follows:

- Computer equipment 2-4 years
- Furniture and fittings 4 years

The residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each reporting date.

Leasehold improvements are depreciated over the unexpired period of the lease or the estimated useful life of the assets, whichever is shorter.

An item of plant and equipment is derecognised upon disposal or when there is no future economic benefit to the Group. Gains and losses between the carrying amount and the disposal proceeds are taken to profit or loss.

Leases

The determination of whether an arrangement is or contains a lease is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

A distinction is made between finance leases, which effectively transfer from the lessor to the lessee substantially all the risks and benefits incidental to the ownership of leased assets, and operating leases, under which the lessor effectively retains substantially all such risks and benefits.

Finance leases are capitalised. A lease asset and liability are established at the fair value of the leased assets, or if lower, the present value of minimum lease payments. Lease payments are allocated between the principal component of the lease liability and the finance costs, so as to achieve a constant rate of interest on the remaining balance of the liability.

Leased assets acquired under a finance lease are depreciated over the asset's useful life or over the shorter of the asset's useful life and the lease term if there is no reasonable certainty that the Group will obtain ownership at the end of the lease term.

Note 1. Significant Accounting Policies (continued)

Leases (continued)

Operating lease payments, net of any incentives received from the lessor, are charged to profit or loss on a straight-line basis over the term of the lease.

Intangible assets

IT development and software

Costs incurred in developing products or systems and costs incurred in acquiring software and licenses that will contribute to future period financial benefits through revenue generation and/or cost reduction are capitalised to software and systems.

These intangible assets have finite lives and are subject to amortisation on a straight-line basis. The useful lives for these assets are as follows:

- Software 4 years

Research and development

Research expenditure is recognised as an expense as incurred. Costs incurred on development projects (relating to the design and testing of new or improved services) are recognised as intangible assets when it is probable that the project will, after considering its commercial and technical feasibility, be completed and generate future economic benefits and its costs can be measured reliably. The expenditure capitalised comprises all directly attributable costs, including costs of materials, services, direct labour and an appropriate proportion of direct overheads. Other development expenditures that do not meet these criteria are recognised as an expense as incurred. Development costs previously recognised as an expense are not recognised as an asset in a subsequent period. Capitalised development costs are recorded as an intangible asset and amortised from the point at which the asset is ready for use on a straight-line basis over its useful life of 4 years.

Impairment of non-financial assets

Goodwill and other intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount.

Recoverable amount is the higher of an asset's fair value less costs of disposal and value-in-use. The value-in-use is the present value of the estimated future cash flows relating to the asset using a pre-tax discount rate specific to the asset or cash-generating unit to which the asset belongs. Assets that do not have independent cash flows are grouped together to form a cash-generating unit.

Trade and Other Payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of the financial year and which are unpaid. Due to their short-term nature they are measured at amortised cost and are not discounted. The amounts are unsecured and are usually paid within 30 days of recognition.

Note 1. Significant Accounting Policies (continued)

Borrowings

Loans and borrowings are initially recognised at the fair value of the consideration received, net of transaction costs. They are subsequently measured at amortised cost using the effective interest method.

Finance costs

Finance costs attributable to qualifying assets are capitalised as part of the asset. All other finance costs are expensed in the period in which they are incurred.

Provisions

Provisions are recognised when the Group has a present (legal or constructive) obligation as a result of a past event, it is probable the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the reporting date, taking into account the risks and uncertainties surrounding the obligation. If the time value of money is material, provisions are discounted using a current pre-tax rate specific to the liability. The increase in the provision resulting from the passage of time is recognised as a finance cost.

Employee benefits

Short-term employee benefits

Liabilities for wages and salaries, including non-monetary benefits, annual leave and long service leave expected to be settled wholly within 12 months of the reporting date are measured at the amounts expected to be paid when the liabilities are settled.

Other long-term employee benefits

The liability for annual leave and long service leave not expected to be settled within 12 months of the reporting date are measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method.

Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on corporate bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

Defined contribution superannuation expense

Contributions to defined contribution superannuation plans are expensed in the period in which they are incurred.

Share-based payments

Equity-settled and cash-settled share-based compensation benefits are provided to employees. Equity-settled transactions are awards of shares, or options over shares, that are provided to employees in exchange for the rendering of services. Cash-settled transactions are awards of cash for the exchange of services, where the amount of cash is determined by reference to the share price.

Note 1. Significant Accounting Policies (continued)

Employee benefits (continued)

Share-based payments (continued)

The cost of equity-settled transactions are measured at fair value on grant date. Fair value is independently determined using either the Binomial or Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option, together with non-vesting conditions that do not determine whether the Group receives the services that entitle the employees to receive payment. No account is taken of any other vesting conditions.

The cost of equity-settled transactions are recognised as an expense with a corresponding increase in equity over the vesting period. The cumulative charge to profit or loss is calculated based on the grant date fair value of the award, the best estimate of the number of awards that are likely to vest and the expired portion of the vesting period. The amount recognised in profit or loss for the period is the cumulative amount calculated at each reporting date less amounts already recognised in previous periods.

The cost of cash-settled transactions is initially, and at each reporting date until vested, determined by applying either the Binomial or Black-Scholes option pricing model, taking into consideration the terms and conditions on which the award was granted. The cumulative charge to profit or loss until settlement of the liability is calculated as follows:

- during the vesting period, the liability at each reporting date is the fair value of the award at that date multiplied by the expired portion of the vesting period.
- from the end of the vesting period until settlement of the award, the liability is the full fair value of the liability at the reporting date.

All changes in the liability are recognised in profit or loss. The ultimate cost of cash-settled transactions is the cash paid to settle the liability.

Market conditions are taken into consideration in determining fair value. Therefore any awards subject to market conditions are considered to vest irrespective of whether or not that market condition has been met, provided all other conditions are satisfied.

If equity-settled awards are modified, as a minimum an expense is recognised as if the modification has not been made. An additional expense is recognised, over the remaining vesting period, for any modification that increases the total fair value of the share-based compensation benefit as at the date of modification.

If the non-vesting condition is within the control of the Group or employee, the failure to satisfy the condition is treated as a cancellation. If the condition is not within the control of the Group or employee and is not satisfied during the vesting period, any remaining expense for the award is recognised over the remaining vesting period, unless the award is forfeited.

If equity-settled awards are cancelled, it is treated as if it has vested on the date of cancellation, and any remaining expense is recognised immediately. If a new replacement award is substituted for the cancelled award, the cancelled and new award is treated as if they were a modification.

Note 1. Significant Accounting Policies (continued)

Fair value measurement

When an asset or liability, financial or non-financial, is measured at fair value for recognition or disclosure purposes, the fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date; and assumes that the transaction will take place either: in the principal market; or in the absence of a principal market, in the most advantageous market.

Fair value is measured using the assumptions that market participants would use when pricing the asset or liability, assuming they act in their economic best interests. For non-financial assets, the fair value measurement is based on its highest and best use. Valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, are used, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Assets and liabilities measured at fair value are classified, into three levels, using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. Classifications are reviewed at each reporting date and transfers between levels are determined based on a reassessment of the lowest level of input that is significant to the fair value measurement.

For recurring and non-recurring fair value measurements, external valuers may be used when internal expertise is either not available or when the valuation is deemed to be significant. External valuers are selected based on market knowledge and reputation. Where there is a significant change in fair value of an asset or liability from one period to another, an analysis is undertaken, which includes a verification of the major inputs applied in the latest valuation and a comparison, where applicable, with external sources of data.

Issued capital

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Dividends

Dividends are recognised when declared during the financial year and no longer at the discretion of the Group.

Business Combinations

The acquisition method of accounting is used to account for business combinations regardless of whether equity instruments or other assets are acquired.

The consideration transferred is the sum of the acquisition-date fair values of the assets transferred, equity instruments issued or liabilities incurred by the acquirer to former owners of the acquiree and the amount of any non-controlling interest in the acquiree.

On the acquisition of a business, the Group assesses the financial assets acquired and liabilities assumed for appropriate classification and designation in accordance with the contractual terms,

Note 1. Significant Accounting Policies (continued)

Business Combinations (continued)

economic conditions, the Group's operating or accounting policies and other pertinent conditions in existence at the acquisition-date.

Where the business combination is achieved in stages, the Group remeasures its previously held equity interest in the acquiree at the acquisition-date fair value and the difference between the fair value and the previous carrying amount is recognised in profit or loss.

Contingent consideration to be transferred by the acquirer is recognised at the acquisition-date fair value. Subsequent changes in the fair value of the contingent consideration classified as an asset or liability is recognised in profit or loss. Contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity.

The difference between the acquisition-date fair value of assets acquired, liabilities assumed and any non-controlling interest in the acquiree and the fair value of the consideration transferred and the fair value of any pre-existing investment in the acquiree is recognised as goodwill. If the consideration transferred and the pre-existing fair value is less than the fair value of the identifiable net assets acquired, being a bargain purchase to the acquirer, the difference is recognised as a gain directly in profit or loss by the acquirer on the acquisition-date, but only after a reassessment of the identification and measurement of the net assets acquired, the non-controlling interest in the acquiree, if any, the consideration transferred and the acquirer's previously held equity interest in the acquirer.

Business combinations are initially accounted for on a provisional basis. The acquirer retrospectively adjusts the provisional amounts recognised and also recognises additional assets or liabilities during the measurement period, based on new information obtained about the facts and circumstances that existed at the acquisition-date. The measurement period ends on either the earlier of (i) 12 months from the date of the acquisition or (ii) when the acquirer receives all the information possible to determine fair value.

Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to the owners of the Group, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the financial year.

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares

Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense.

Note 1. Significant Accounting Policies (continued)

Goods and Services Tax (continued)

Receivables and payables in the statement of financial position are shown inclusive of GST. The net amount of GST recoverable from, or payable to, the tax authority is included in other receivables or other payables in the statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the tax authority, are presented as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the tax authority.

Investments and other financial assets

Investments and other financial assets are initially measured at fair value. Transaction costs are included as part of the initial measurement, except for financial assets at fair value through profit or loss. They are subsequently measured at either amortised cost or fair value depending on their classification. Classification is determined based on the purpose of the acquisition and subsequent reclassification to other categories is restricted.

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the consolidated entity has transferred substantially all the risks and rewards of ownership.

Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are either: (i) held for trading, where they are acquired for the purpose of selling in the short-term with an intention of making a profit; or (ii) designated as such upon initial recognition, where they are managed on a fair value basis or to eliminate or significantly reduce an accounting mismatch. Except for effective hedging instruments, derivatives are also categorised as fair value through profit or loss. Fair value movements are recognised in profit or loss.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets, principally equity securities, that are either designated as available-for-sale or not classified as any other category. After initial recognition, fair value movements are recognised in other comprehensive income through the available-for-sale reserve in equity. Cumulative gain or loss previously reported in the available-for-sale reserve is recognised in profit or loss when the asset is derecognised or impaired.

Impairment of financial assets

The consolidated entity assesses at the end of each reporting period whether there is any objective evidence that a financial asset or group of financial assets is impaired. Objective evidence includes significant financial difficulty of the issuer or obligor; a breach of contract such as default or delinquency in payments; the lender granting to a borrower concessions due to economic or legal reasons that the lender would not otherwise do; it becomes probable that the borrower will enter bankruptcy or other financial reorganisation; the disappearance of an active market for the financial asset; or observable data indicating that there is a measurable decrease in estimated future cash flows.

Note 1. Significant Accounting Policies (continued)

Investments and other financial assets (continued)

The amount of the impairment allowance for financial assets carried at cost is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the current market rate of return for similar financial assets.

Available-for-sale financial assets are considered impaired when there has been a significant or prolonged decline in value below initial cost. Subsequent increments in value are recognised in other comprehensive income through the available-for-sale reserve.

New Accounting Standards and Interpretations not yet mandatory or early adopted

Australian Accounting Standards and Interpretations that have recently been issued or amended but are not yet mandatory, have not been early adopted by the Group for the annual reporting period ended 30 June 2018. The Group's assessment of the impact of these new or amended Accounting Standards and Interpretations, most relevant to the Group, are set out below.

AASB 9 Financial Instruments

This standard is applicable to annual reporting periods beginning on or after 1 January 2018. The standard replaces all previous versions of AASB 9 and completes the project to replace IAS 39 'Financial Instruments: Recognition and Measurement'. AASB 9 introduces new classification and measurement models for financial assets. A financial asset shall be measured at amortised cost, if it is held within a business model whose objective is to hold assets in order to collect contractual cash flows, which arise on specified dates and solely principal and interest. All other financial instrument assets are to be classified and measured at fair value through profit or loss unless the entity makes an irrevocable election on initial recognition to present gains and losses on equity instruments (that are not held-for-trading) in other comprehensive income ('OCI'). For financial liabilities, the standard requires the portion of the change in fair value that relates to the entity's own credit risk to be presented in OCI (unless it would create an accounting mismatch). New simpler hedge accounting requirements are intended to more closely align the accounting treatment with the risk management activities of the entity. New impairment requirements will use an 'expected credit loss' ('ECL') model to recognise an allowance. Impairment will be measured under a 12-month ECL method unless the credit risk on a financial instrument has increased significantly since initial recognition in which case the lifetime ECL method is adopted. The standard introduces additional new disclosures. The Group will adopt this standard from 1 July 2018 but the impact of its adoption is currently being assessed by the Group and yet to be finalised.

AASB 15 Revenue from Contracts with Customers

This standard is applicable to annual reporting periods beginning on or after 1 January 2018. The standard provides a single standard for revenue recognition. The core principle of the standard is that an entity will recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard will require: contracts (either written, verbal or implied) to be identified, together with the separate performance obligations within the contract; determine the transaction price, adjusted for the time value of money excluding credit

Note 1. Significant Accounting Policies (continued)

**New Accounting Standards and Interpretations not yet mandatory or early adopted
(continued)**

AASB 15 Revenue from Contracts with Customers (continued)

risk; allocation of the transaction price to the separate performance obligations on a basis of relative stand-alone selling price of each distinct good or service, or estimation approach if no distinct observable prices exist; and recognition of revenue when each performance obligation is satisfied. Credit risk will be presented separately as an expense rather than adjusted to revenue. For goods, the performance obligation would be satisfied when the customer obtains control of the goods. For services, the performance obligation is satisfied when the service has been provided, typically for promises to transfer services to customers. For performance obligations satisfied over time, an entity would select an appropriate measure of progress to determine how much revenue should be recognised as the performance obligation is satisfied. Contracts with customers will be presented in an entity's statement of financial position as a contract liability, a contract asset, or a receivable, depending on the relationship between the entity's performance and the customer's payment. Sufficient quantitative and qualitative disclosure is required to enable users to understand the contracts with customers; the significant judgments made in applying the guidance to those contracts; and any assets recognised from the costs to obtain or fulfil a contract with a customer. The Group will adopt this standard from 1 July 2018 and the impact is not expected to be material.

AASB 16 Leases

This standard is applicable to annual reporting periods beginning on or after 1 January 2019. The standard replaces AASB 117 'Leases' and for lessees will eliminate the classifications of operating leases and finance leases. Subject to exceptions, a 'right-of-use' asset will be capitalised in the statement of financial position, measured as the present value of the unavoidable future lease payments to be made over the lease term. The exceptions relate to short-term leases of 12 months or less and leases of low-value assets (such as personal computers and small office furniture) where an accounting policy choice exists whereby either a 'right-of-use' asset is recognised or lease payments are expensed to profit or loss as incurred. A liability corresponding to the capitalised lease will also be recognised, adjusted for lease prepayments, lease incentives received, initial direct costs incurred and an estimate of any future restoration, removal or dismantling costs. Straight-line operating lease expense recognition will be replaced with a depreciation charge for the leased asset (included in operating costs) and an interest expense on the recognised lease liability (included in finance costs). In the earlier periods of the lease, the expenses associated with the lease under AASB 16 will be higher when compared to lease expenses under AASB 117. EBITDA (Earnings Before Interest, Tax, Depreciation and Amortisation) results will be improved as the operating expense is replaced by interest expense and depreciation in profit or loss under AASB 16. For classification within the statement of cash flows, the lease payments will be separated into both a principal (financing activities) and interest (either operating or financing activities) component. For lessor accounting, the standard does not substantially change how a lessor accounts for leases. The Group will adopt this standard from 1 July 2019 but there is no material impact to the Group.

2. Critical accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts in the financial statements. Management continually evaluates its judgements and estimates in relation to assets, liabilities, contingent liabilities, revenue and expenses. Management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events, management believes to be reasonable under the circumstances. The resulting accounting judgements and estimates will seldom equal the related actual results. The judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities (refer to the respective notes) within the next financial year are discussed below.

Share-based payment transactions

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using either the Binomial or Black-Scholes model taking into account the terms and conditions upon which the instruments were granted. The accounting estimates and assumptions relating to equity-settled share-based payments would have no impact on the carrying amounts of assets and liabilities within the next annual reporting period but may impact statement of profit or loss and other comprehensive income and equity.

Note 3. Revenue

	Consolidated	
	2018	2017
	\$	\$
Fees from agents and landlords	227,484	406,881
Renter Products Revenue	1,118,957	521,536
Advertising Sales	957,984	725,978
Other revenue	20,455	-
	2,324,880	1,654,395

Note 4. Other Income

	Consolidated	
	2018	2017
	\$	\$
R&D Incentive recognised in income	124,361	25,038
Interest income	12,575	31,339
Sundry income	10,000	15,000
	146,936	71,377

Note 5. Income Tax

	Consolidated	
	2018	2017
	\$	\$
a) The components of tax expense comprise:		
Current tax	-	-
Deferred tax	-	-
Total income tax expense	-	-

- b) The prima facie tax on loss from ordinary activities before income tax is reconciled to the income tax as follows:

Prima facie tax payable on loss from ordinary activities before income tax at 27.5% (30 June 2017: 27.5%)	(776,198)	(2,341,249)
Tax effect of:		
Share based payments	52,734	616,940
Tax losses not recognised	831,648	1,900,790
Timing differences not recognised	(69,574)	(165,518)
Other	(38,610)	(10,963)
Total income tax expense	-	-
The applicable weighted average effective tax rates were:	0%	0%

- c) Deferred tax assets at 30 June 2018 not brought to account are:

Carried forward tax losses	4,577,672	3,866,010
Other	252,481	390,588
Total Deferred tax asset not recognised	4,830,153	4,256,598

The benefit for tax losses will only be obtained if:

- the Group derives future assessable income of a nature and of an amount sufficient to enable the benefit from the deductions for the losses to be realised; and
- the losses are transferred to an eligible entity in the Group; and
- the Group continues to comply with the conditions for deductibility imposed by tax legislation; and
- no changes in tax legislation adversely affect the consolidated in realising the benefit from the deduction for the losses.

Note 6. Cash and Cash Equivalents

	Consolidated	
	2018	2017
	\$	\$
Cash at bank and in hand	1,289,603	3,050,298
Term Deposits	1,000,000	204,082*
Total cash and cash equivalents	2,289,603	3,254,380

* In 2017 Commonwealth Bank of Australia had a charge over this term deposit as security for a bank guarantee that it had provided on behalf of Rent.com.au (Operations) Pty Ltd, to Amelia Correia Holdings the lessor under the lease for the office at Level 2, 7 Ventnor Avenue West Perth. This had since been released since the lease termination.

Cash at bank and in hand earns interest at floating rates based on daily bank rates. The effective interest rate on short-term bank deposits was 1.14% (2017:1.5%).

Reconciliation to cash and cash equivalents at the end of the financial year

Balances as above	2,289,603	3,254,380
-------------------	-----------	-----------

The maximum exposure to credit risk at the end of the reporting period is the carrying amount of each class of cash and cash equivalents mentioned above.

Note 7. Trade and Other Receivables

	Consolidated	
	2018	2017
	\$	\$
Trade debtors	337,991	171,317
Less: Provision for impairment of receivables	(13,706)	(5,000)
	324,285	166,317
Prepayments	68,658	70,043
GST receivable	41,992	9,689
Total trade and other receivables	434,935	246,049

Impairment of receivables

The Group has recognised a loss of \$13,706 (2017: \$5,000) in profit or loss in respect of impairment of receivables for the year ended 30 June 2018.

The ageing of the impaired receivables provided for above are as follows:

	Consolidated	
	2018	2017
	\$	\$
0 to 3 months overdue	-	-
3 to 6 months overdue	7,106	-
Over 6 months overdue	6,600	5,000
	13,706	5,000

Note 7. Trade and Other Receivables (continued)

Movement in the provision for impairment of receivables are as follows:

	Consolidated	
	2018	2017
	\$	\$
Opening balance	5,000	-
Additional provisions recognised	13,706	5,000
Receivables written off during the year as uncollectable	(5,000)	-
Unused amounts reversed	-	-
Closing Balance	13,706	5,000

As at 30 June 2018 there were no customers with balances past due but without provision for impairment.

Credit Risk – Trade and Other Receivables

The Group has no significant concentration of credit risk with respect to any single counter party other than Australian Taxation Office. The class of assets described as trade and other receivables is considered to be the main source of credit risk related to the Group.

Other than as noted above, all trade and other receivables are within initial trade terms and considered to be of high credit quality.

Note 8. Plant and Equipment

	Consolidated	
	2018	2017
	\$	\$
Plant and equipment at cost	244,375	232,205
Less: accumulated depreciation	(222,226)	(160,177)
	22,149	72,028

Reconciliations of the written down values at the beginning and end of the current and previous financial year are set out below:

	Consolidated	
	2018	2017
	\$	\$
Balance at the beginning of the year	72,028	122,060
Additions	12,169	19,016
Depreciation	(62,048)	(69,048)
Disposals	-	-
Written down balance at end of year	22,149	72,028

Note 9. Intangible Assets

	Consolidated	
	2018	2017
	\$	\$
Software and website development at cost	4,287,828	3,244,597
Less: accumulated depreciation	(2,631,180)	(2,251,411)
	1,656,648	993,186

Reconciliations of the written down values at the beginning and end of the current and previous financial year are set out below:

	Consolidated	
	2018	2017
	\$	\$
Balance at the beginning of the year	993,185	754,799
Additions	1,043,233	616,772
Depreciation	(379,770)	(378,385)
Disposals	-	-
Written down balance at end of year	1,656,648	993,186

Note 10. Trade and Other Payables

	Consolidated	
	2018	2017
	\$	\$
Trade creditors	350,004	352,717
Other payables	167,841	322,968
Total Trade and Other Payables	517,845	675,685

Trade payables are non-interest bearing and are normally settled on 30 to 60-day terms.

Note 11. Borrowings

	Consolidated	
	2018	2017
	\$	\$
Finance lease liability – current	21,606	48,226
Finance lease liability – non-current	-	21,606
Total Borrowings	21,606	69,832

These are finance leases for computer equipment with an average remaining term of 6.5 months. The interest rates and repayments are fixed.

Note 12. Employee Benefits

	Consolidated	
	2018	2017
	\$	\$
Annual leave	182,195	202,303
Long service leave	62,001	25,245
Total Employee Benefits	244,196	227,548
Expected to be settled within 12 months	244,196	202,303
Expected to be settled after 12 months	-	25,245

The Group encourages employees to take leave when due and accordingly expects that the leave accruals above will be utilised during the next 12 months.

Note 13. Issued Capital

	Consolidated	
	2018	2017
	\$	\$
Ordinary shares fully paid	34,912,935	32,239,412
	Shares	Shares

Conversion of performance rights during year	4,079,461	\$0.20	815,892
Share issue transaction costs	-		(374,172)
Closing Balance – 30 June 2017	199,783,430		32,239,412

Details	Shares	Issue price	\$
Opening Balance – 1 July 2017	199,783,430		32,239,412
Issue of shares – placement 1 May 2018	29,975,714	\$0.077	2,308,130
Issue of shares – share purchase plan 22 May 2018	6,493,498	\$0.077	500,000
Conversion of performance rights during year	86,667	\$0.18	15,633
Share issue transaction costs	-		(150,240)
Closing Balance – 30 June 2018	236,339,309		34,912,935

Note 13. Issued Capital (continued)

Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the Group in proportion to the number of and amounts paid on the shares held. The fully paid ordinary shares have no par value and the Group does not have a limited amount of authorised capital.

On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

Share buy-back

There is no current on-market share buy-back.

Capital management

Capital risk management

The Group's objectives when managing capital is to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders and to maintain an optimum capital structure to reduce the cost of capital.

Capital is regarded as total equity, as recognised in the statement of financial position, plus net debt. Net debt is calculated as total borrowings less cash and cash equivalents.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The Group would look to raise capital when an opportunity to invest in a business or company was seen as value adding relative to the current company's share price at the time of the investment. The Group is not actively pursuing additional investments in the short term as it continues to integrate and grow its existing businesses in order to maximise synergies.

The Group is subject to certain financing arrangements covenants and meeting these is given priority in all capital risk management decisions. There have been no events of default on the financing arrangements during the financial year.

The capital risk management policy remains unchanged from the prior financial year.

Note 14. Reserves

	Consolidated	
	2018	2017
	\$	\$
Share based payment reserve	6,426,905	6,250,779

Share Based Payment Reserve

The share-based payment reserve recognises options, performance rights and performance shares that have been issued as share based payments.

Note 15. Share Based Payments

The Rent.com.au Limited Long-Term Incentive Plan ("LTIP") was established following approval by shareholders on 20 May 2015. All employees, directors and consultants are eligible to participate in the LTIP.

The LTIP provides for the issue of:

- Performance Rights which, upon a determination by the Board that the performance conditions attached to the Performance Rights have been met, will result in the issue of one ordinary Share in the Company for each Performance Right; and
- Plan Options which, upon a determination by the Board that the vesting conditions attached to the Plan Options have been met, will result in the Plan Options vesting and being able to be exercised into Shares by payment of the exercise price.

The key features of the Plan are as follows:

- The Board will determine the number of Performance Rights and Plan Options (Plan Securities) to be granted to Eligible Employees (or their Affiliates) and the vesting conditions, expiry date of the Plan Securities and the exercise price of the Plan Options in its sole discretion.
- The Plan Securities are not transferable unless the Board determines otherwise or the transfer is required by law and provided that the transfer complies with the Corporations Act.
- Subject to the Corporations Act and the Listing Rules and restrictions on reducing the rights of a holder of Plan Securities, the Board will have the power to amend the Plan as it sees fit.

a) Expenses arising from share-based payment transactions

Total expenses arising from share-based payment transactions recognised during the period were as follows:

	Consolidated	
	2018	2017
	\$	\$
Performance rights issued/(reversed) under LTIP	21,809	(215,329)
Performance shares issued to shareholders	-	815,892
Option issued under LTIP	169,950	1,642,855
Total share-based payments expense	191,759	2,243,418

b) Options

All options granted to key employees, consultants and advisors of the Group are for ordinary shares in Rent.com.au Limited which confer a right of one ordinary share for every option held.

Note 15. Share Based Payments (continued)

b) Options (continued)

Note 15. Share Based Payments (continued)

b) Options (continued)

The following table sets out the assumptions made in determining the fair value of the options granted during the prior year:

	Options Granted 9 September 2016	Options Granted 9 September 2016	Options Granted 9 September 2016
Expected volatility (%)	90	90	90
Risk free interest rate (%)	1.49	1.49	1.49
Weighted average expected life of options (years)	5	5	5
Expected dividends	Nil	Nil	Nil
Option exercise price (cents)	25	35	50
Share price at grant date (cents)	10.3	10.3	10.3
Fair value of option (cents)	5.6	5.0	4.4
Number of options*	1,250,000	1,250,000	1,250,000
Expiry date	9 September 2021	9 September 2021	9 September 2021
Grant date	9 September 2016	9 September 2016	9 September 2016

*Employee options:

Vest upon continuous employment with the Group until 30 June 2018.

The weighted average remaining contractual life of options outstanding at year-end was 3 years.
The exercise price of outstanding shares at the end of the reporting period was \$0.28.

c) Performance Shares/Rights

Performance shares and performance rights do not have an exercise price. Upon satisfaction of the relevant performance vesting condition they convert to ordinary shares in the ratio of one ordinary share for every one performance share / performance right.

Note 15. Share Based Payments (continued)

c) Performance Shares/Rights (continued)

Note 15. Share Based Payments (continued)

c) Performance Shares/Rights (continued)

- 1 Class A Performance Shares/rights – these performance shares will vest on the achievement of greater than 500,000 unique visitors to the website, Rent.com.au in each of 3 consecutive months on or before 31 December 2018. Expire 31 January 2019.
- 2 Class B Performance Shares/rights – these performance shares will vest on the achievement of greater than \$10,000,000 in revenue by the Group in any 12 month period on or before 31 December 2018. Expire 14 days after the release of the audited financial report for the period ended 31 December 2018.
- 3 Class C Performance Shares/rights – these performance shares will vest upon the achievement of greater than \$3,000,000 in EBITDA by the Group in any 12 month period on or before 31 December 2019. Expire 14 days after the release of the audited financial report for the period ended 31 December 2019.

For the performance rights granted during prior financial year, the valuation model inputs used to determine the fair value at the grant date, are as follows:

Grant date		Number of performance rights	Share price at grant date	Fair value at grant date
9 September 2016		6,567,482	\$0.103	\$676,451
Type	Rights	Underlying share price	Probability %*	Value (\$)
Class B	3,283,741	\$0.103	2%	6,765
Class C	3,283,741	\$0.103	0%	-
	6,567,482	\$0.103	-	6,765

* The probability estimated by the management is over the expiry date of the performance shares/rights.

Note 16. Accumulated Losses

	Consolidated	
	2018	2017
	\$	\$
Accumulated losses at the beginning of the financial year	(34,897,613)	(26,383,982)
(Loss) after income tax for the year	(2,822,539)	(8,513,631)
Accumulated losses at the end of the financial year	(37,720,152)	(34,897,613)

Note 17. Auditor's Remuneration

The Group's sole auditor is RSM Australia Partners. The following amounts were paid or payable to RSM Australia Partners for the services set out below:

	Consolidated	
	2018	2017
	\$	\$
Auditing or reviewing the financial reports	46,000	41,500
Taxation and corporate services	8,250	18,050
Research & Development Grant services	24,545	-
Total auditor's remuneration	78,795	59,550

Note 18. Earnings per Share

	Consolidated	
	2018	2017
	\$	\$
Loss after income tax attributable to the Group's owners	(2,822,539)	(8,513,631)
	Number	Number
Weighted average number of ordinary shares used in calculating basic loss per share	204,967,270	180,245,365
	Cents	Cents
Basic and diluted (loss) per share	(1.38)	(4.72)

Options have not been included in the calculation of dilutive loss per share as the options are anti-dilutive.

Note 19. Dividends Paid or Proposed

The directors do not recommend the payment of a dividend and no amount has been paid or declared by way of a dividend to the date of this report.

Note 20. Operating Segments

Identification of reportable operating segments

The Group operates as a single operating segment with different revenue streams. The Board (the Chief Operating Decision Makers ('CODM') of the business) reviews performance of the Group as a whole.

The Board evaluates Group performance by reference to revenue and profit and loss which are measured consistently with these consolidated financial statements. In addition, the Board evaluates EBITDA (earnings before interest, tax, depreciation and amortisation). The accounting policies adopted for internal reporting to the Board are consistent with those adopted in the financial statements.

The information is reported to the Board on a monthly basis.

Note 21. Commitments

Operating lease commitments

Future minimum rentals payable under non-cancellable office leases are as follows:

	Consolidated	
	2018	2017
	\$	\$
Within one year	46,600	78,163
After one year but not more than five years	-	-
Total operating lease commitments	46,600	78,163

There are no non-cancellable office leases as at 30 June 2018.

Note 21. Commitments (continued)

Finance lease commitments

Future minimum payments payable under non-cancellable finance leases are as follows:

	Consolidated	
	2018	2017
	\$	\$
Within one year	22,061	51,515
After one year but not more than five years	-	22,061
Total finance lease commitments	22,061	73,576
Total commitment	22,061	73,576
Less: future finance charges	(455)	(3,744)
Net commitment recognised as Borrowings	21,606	69,832

Finance lease commitments includes contracted amounts for various plant and equipment with a written down value of \$8,805 (2017: \$48,112) secured under finance leases expiring within one to five years. Under the terms of the leases, the Group has the option to acquire the leased assets for predetermined residual values on the expiry of the leases.

Note 22. Events After the Reporting Period

No other matters or circumstances have arisen since the end of the financial period which significantly affected or may significantly affect the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial years.

Note 23. Controlled Entities

All controlled entities are included in the consolidated financial statements. The Company does not guarantee to pay the deficiency of its controlled entities in the event of a winding up of any controlled entity. The financial year ends of the controlled entities are the same as that of the Company, being 30 June.

	Country of Incorporation	Principal Activity	Percentage Owned	
			2018	2017
Parent Entity				
Rent.com.au Limited	Australia	Investment/Parent		
Name of controlled entity				
Rent.com.au (Operations) Pty Ltd	Australia	Information Technology	100%	100%

Note 26. Related Party Transactions

The Group's main related parties are as follows:

(i) *Entities exercising control over the Group:*

The ultimate parent entity that exercises control over the Group is Rent.com.au Limited, which is incorporated in Australia.

(ii) *Key management personnel:*

Any person(s) having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise) of that entity, are considered key management personnel.

For details of disclosures relating to key management personnel, refer to Note 26.

(iii) *Entities subject to significant influence by the Group:*

An entity that has the power to participate in the financial and operating policy decisions of an entity, but does not have control over those policies, is an entity which holds significant influence. Significant influence may be gained by share ownership, statute or agreement.

(iv) *Other related parties:*

Other related parties include entities controlled by the ultimate parent entity and entities over which key management personnel have joint control.

Transactions between related parties are on normal commercial terms and conditions no more favourable than those available to other parties unless otherwise stated.

The following transactions occurred with related parties:

	Consolidated	
	2018	2017
	\$	\$
<i>Transactions:</i>

	8,795	-

¹ Philip Warren is a director and shareholder of Grange Consulting Group Pty Ltd.

² Grange Capital Partners Pty Ltd is an entity associated with Grange Consulting Group Pty Ltd, although Mr Warren is not a shareholder or director of Grange Capital Partners Pty Ltd.

³ Garry Garside is a director of Watersun Property Pty Ltd and Servco Pty Ltd.

⁴ Greg Bader was a director of Trident Subsea Cable Pty Ltd.

Note 27. Interests of Key Management Personnel

Compensation of Key Management Personnel (KMP)

Refer to the remuneration report contained in the directors' report for details of the remuneration paid or payable to each member of the Group's key management personnel for the period ended 30 June 2018.

The aggregate compensation made to key management personnel of the Group is set out below:

	Consolidated	
	2018	2017
	\$	\$
Short-term employee benefits	532,870	978,533
Post-employment benefits	41,617	76,336
Share-based payments	118,479	1,867,758
Total KMP remuneration	692,966	2,922,627

Note 28. Financial Risk Management

The Group's financial instruments consist mainly of deposits with banks and accounts payable.

The totals for each category of financial instruments, measured in accordance with AASB 139 as detailed in the accounting policies to these financial statements, are as follows:

		Consolidated	
		2018	2017
		\$	\$
Cash and cash equivalents	Note 6	2,289,603	3,254,380
Trade and other receivables	7	434,935	236,360
Total Financial Assets		2,724,538	3,490,740
Trade and other payables	10	517,845	675,685
Borrowings	11	21,606	69,832
Total Financial Liabilities		539,451	745,517

Financial Risk Management Policies

The Board of Directors is responsible for monitoring and managing financial risk exposures of the Group. The Board monitors the Group's financial risk management policies and approves financial transactions. It also reviews the effectiveness of internal controls relating to counterparty credit risk, financing risk and interest rate risk.

The Board's overall risk management strategy seeks to assist the Group in meeting its financial targets, while minimising potential adverse effects on financial performance. Its functions include the review of the credit risk policies and future cash flow requirements.

Note 28. Financial Risk Management (continued)

Specific Financial Risk Exposures and Management

The main risks the Group is exposed to through its financial instruments are credit risk, liquidity risk and market risk consisting of interest rate risk and foreign currency risk.

a) Credit Risk

Exposure to credit risk relating to financial assets arises from the potential non-performance by counterparties of contract obligations that could lead to a financial loss to the Group.

Credit risk is managed through the maintenance of procedures (such procedures include the utilisation of systems for the approval, granting and renewal of credit limits, regular monitoring of exposures against such limits and monitoring of the financial stability of significant customers and counterparties), ensuring to the extent possible, that customers and counterparties to transactions are of sound credit worthiness. Such monitoring is used in assessing receivables for impairment. Credit terms are generally 30 days from the invoice date.

Risk is also minimised through investing surplus funds in financial institutions that maintain a high credit rating.

Credit risk exposures

The maximum exposure to credit risk by class of recognised financial assets at reporting date is equivalent to the carrying value and classification of those financial assets (net of any provisions) as presented in the statement of financial position.

The Group has no significant concentration of credit risk with any single counterparty or group of counterparties, except the Australian Taxation Office.

Trade and other receivables that are neither past due nor impaired are considered to be of high credit quality.

Credit risk related to balances with banks and other financial institutions is managed by the board in accordance with approved board policy. The following table provides information regarding the credit risk relating to cash and money market securities based on Standard & Poor's counterparty credit ratings.

Cash and cash equivalents	Note	Consolidated	
		2018 \$	2017 \$
AA- Rated		2,289,603	3,254,380
A+ Rated		-	-
Unrated		-	-
	6	2,289,603	3,254,380

Note 28. Financial Risk Management (continued)

b) Liquidity Risk

Liquidity risk arises from the possibility that the Group might encounter difficulty in settling its debts or otherwise meeting its obligations related to financial liabilities. The Group manages this risk through the following mechanisms:

- preparing forward looking cash flow analysis in relation to its operational, investing and financing activities;
- obtaining funding from a variety of sources;
- maintaining a reputable credit profile;
- managing credit risk related to financial assets;
- only investing surplus cash with major financial institutions; and
- comparing the maturity profile of financial liabilities with the realisation profile of financial assets.

The tables below reflect an undiscounted contractual maturity analysis for financial liabilities.

Cash flows realised from financial assets reflect management's expectation as to the timing of realisation. Actual timing may therefore differ from that disclosed. The timing of cash flows presented in the table to settle financial liabilities reflects the earliest contractual settlement dates and does not reflect management's expectations that banking facilities will be rolled forward.

	Weighted average effective interest rate	Within 1 year		1 to 5 Years		Total	
		2018	2017	2018	2017	2018	2017
		%	\$	\$	\$	\$	\$
Financial liabilities due for payment							
Trade and other payables	-	517,845	675,685	-	-	517,845	675,685
Borrowings	6.8%	21,606	48,226	-	21,606	21,606	69,832
Financial assets realisable cash flows							
Cash and cash equivalents	2%	2,289,603	3,254,380	-	-	2,289,603	3,254,380
Trade and other receivables	-	392,942	236,360	-	-	392,942	236,360

c) Market Risk

(i) Interest rate risk

Exposure to interest rate risk arises on financial assets and financial liabilities recognised at the end of the reporting period whereby a future change in interest rates will affect future cash flows or the fair value of fixed rate financial instruments. The Group does not have material exposure to interest rate risk at reporting date.

Note 28. Financial Risk Management (continued)

(ii) Price risk

The Group currently has no exposure to equity securities price risk arising from investments held by the Group and classified in the statement of financial position as fair value through profit or loss.

(iii) Foreign Currency Risk

Foreign exchange risk arises from future commercial transactions and recognised assets and liabilities denominated in a currency that is not the entity's functional currency and net investments in foreign operations.

The Group does not have any foreign currency exposure.

(iv) Fair value measurement

Unless otherwise stated, the carrying amounts of financial instruments reflect their fair value.

Note 29. Contingent Liabilities

There are no contingent liabilities for the year ended 30 June 2018 (30 June 2017: nil).

Note 30. Parent Information

The following information has been extracted from the book and records of the parent and has been prepared in accordance with the accounting standards.

	2018	2017
	\$	\$
Statement of profit or loss and other comprehensive income		
(Loss) for the year	(2,822,540)	(8,513,631)
Total comprehensive (loss) for the year	(2,822,540)	(8,513,631)
Statement of Financial Position		
Assets		
Current assets	95	-
Non-current assets	3,648,485	3,632,417
Total assets	3,648,580	3,632,417
Liabilities		
Current liabilities	(28,892)	(39,839)
Total liabilities	(28,892)	(39,839)
Equity		
Issued capital	72,917,175	70,243,651
Share-Based Payment Reserve	9,813,742	9,637,616
Accumulated losses	(79,111,229)	(76,288,689)
Total equity	3,619,688	3,592,578

Contingent Liabilities and Capital expenditure

There are no contingent liabilities for the parent entity for both financial periods ended 30 June 2018 and 30 June 2017.

The parent entity did not have capital expenditure commitments for the acquisition of property, plant and equipment contracted but not provided for.

Guarantees

During the reporting period, Rent.com.au Limited had not entered into any guarantees in relation to the debts of its subsidiaries.

Significant accounting policies

The accounting policies of the parent entity are consistent with those of the Group, as disclosed in note 1, except for the following:

- Investments in subsidiaries are accounted for at cost, less any impairment, in the parent entity.
- Investments in associates are accounted for at cost, less any impairment, in the parent entity.
- Dividends received from subsidiaries are recognised as other income by the parent entity and its receipt may be an indicator of an impairment of the investment.

In the directors' opinion:

- the attached financial statements and notes comply with the Corporations Act 2001, the Accounting Standards, the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- the attached financial statements and notes comply with International Financial Reporting Standards as issued by the International Accounting Standards Board as described in note 1 to the financial statements;
- the attached financial statements and notes give a true and fair view of the Group's financial position as at 30 June 2018 and of its performance for the financial year ended on that date;
- there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable; and
- the directors have been given the declarations required by section 295A of the Corporations Act 2001.

Signed in accordance with a resolution of directors made pursuant to section 295(5)(a) of the Corporations Act 2001.

On behalf of the directors

A handwritten signature in dark ink, appearing to read 'Garry Garside', written over a horizontal line.

Dr. Garry Garside
Non-executive Chairman
Perth, 17 August 2018
